

EVANS AYANLUDE ABAYOMI

Junior Cybersecurity Analyst | Cybersecurity Defense Analyst | Certified Ethical Hacker | Full-Stack Developer

Ogbomoso, Oyo State, Nigeria | GitHub: github.com/EvansA20 | LinkedIn: linkedin.com/in/evans-ayanlude-7194b833b | Portfolio: the-webforge-team.vercel.app/

PROFESSIONAL SUMMARY

Cybersecurity professional-in-training and Full-Stack Developer with a strong foundation in defensive security, threat management, ethical hacking, incident investigation, endpoint security, and security operations. Experienced in web development using JavaScript, React.js, Node.js, PHP, Python, and SQL, with additional knowledge of Linux-based security environments and cybersecurity tools. Completed multiple Cisco Networking Academy credentials covering Cybersecurity Defense Analysis, Junior Cybersecurity Analysis, Cyber Threat Management, Endpoint Security, Ethical Hacking, JavaScript, and C++. Currently pursuing a degree in Cyber Security at Ladoke Akintola University of Technology (LAUTECH), with a career focus on cybersecurity analysis, security operations, threat detection, incident response, and offensive security.

CORE CYBERSECURITY SKILLS

- Security Operations Center (SOC) Fundamentals
- Cybersecurity Defense Analysis
- Threat Detection & Analysis
- Incident Investigation & Incident Response
- Threat Hunting
- Vulnerability Assessment & Risk Management
- Endpoint Security & Network Security
- Penetration Testing & Ethical Hacking
- Digital Forensics & Malware Analysis Fundamentals
- MITRE ATT&CK, CIA Triad, Risk-Based Alerting
- SOAR & PEAK Threat Hunting Framework

TECHNICAL SKILLS

- Programming: JavaScript, TypeScript, Python, Java, C, C++, C#
- Frontend: HTML5, CSS3, React.js, React Native
- Backend: Node.js, Express.js, PHP
- Databases: MySQL, MongoDB, SQL
- Security Tools: Kali Linux, Termux, Splunk, Autopsy, FTK Imager, SpiderFoot, OSINT Framework
- Infrastructure: Git, GitHub, Docker, XAMPP, VirtualBox

CYBERSECURITY CREDENTIALS

Cybersecurity Defense Analyst Career Path — Cisco Networking Academy — September 2026

Junior Cybersecurity Analyst Career Path — Cisco Networking Academy — September 2026

Cyber Threat Management — Cisco Networking Academy — September 2026

Endpoint Security — Cisco Networking Academy — September 2026

Ethical Hacker — Cisco Networking Academy — September 2026

Introduction to Cybersecurity — Cisco Networking Academy — September 2026

PROGRAMMING CREDENTIALS

C++ Essentials 2 — Cisco Networking Academy — September 2026

JavaScript Essentials 2 — Cisco Networking Academy — September 2026

EDUCATION

PROFESSIONAL & LEADERSHIP EXPERIENCE

WEBFORGE TEAM — Founder & CEO / Team Lead — 2025–Present

- Lead technical and organizational operations across web development, cybersecurity and digital solutions.
- Coordinate software development and cybersecurity-related projects.
- Oversee frontend, backend, UI/UX, security, project management and other technical functions.
- Design and develop web-based applications and digital platforms.
- Promote secure development practices and cybersecurity awareness.
- Provide technical direction and mentorship to team members.

SELECTED PROJECTS

Email Phishing Detector — Web-based cybersecurity project for identifying and assessing potential phishing emails and suspicious content.

User Behavior Analytics (UBA) — Project concept focused on identifying abnormal user activities and potential security threats.

Cybersecurity Student Resource Platform — Platform concept for manuals and past-question resources with availability monitoring and alerts.

Spectre Learning Hub — Educational technology and learning platform.

PROFESSIONAL ATTRIBUTES

- Analytical problem solving
- Critical thinking
- Team leadership
- Technical research
- Communication
- Project coordination
- Continuous learning
- Security mindset

TARGET ROLES

Junior Cybersecurity Analyst • Cybersecurity Defense Analyst • SOC Analyst • Security Operations Intern • Threat Analyst • Junior Penetration Tester • Security Engineer Intern • Full-Stack Developer
